

Campus Villamanín

From 7 to 13 years old

your true English immersion experience

One of our camp destinations this summer is the Campus Villamanín, which is only an hour away from both Oviedo and León. It is located deep within the wilderness at an altitude of 1,150 metres.

Thanks to its location, you can enjoy magical sunrises and incredible starlit nights. Its climate is the perfect combination of sunny days, and cool nights typical of the north.

FACILITIES

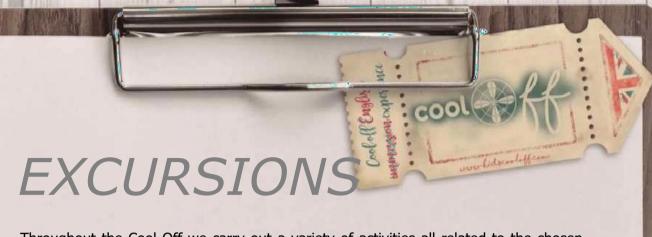

The campus has 28 log cabins fitted with hot water and electricity; their sizes range from 3 to 8 people. Every single one of them are in excellent condition and are extremely comfortable.

Additionally, the campus has several common areas; independent showers and toilets; an industrial-sized kitchen; a spacious and ventilated dining room; large playgrounds; basketball courts and football pitches; as well as a swimming pool and pine forest areas that provide much needed shade for some respite from the summer sun.

Throughout the Cool Off we carry out a variety of activities all related to the chosen theme: workshops, water games, activities to improve the students' English, nighttime activities, etc. And, it goes without saying, we'll go on excursions!

This year we will spend a whole day at the Vegacervera river, a natural environment very close to the campus, where we will be able to show off our Amazon spirit by zip wiring over the Torío river, canoeing on its waters, and going on an expedition to the Cueva de Las Barreras. An incredibly exciting experience! To get to know the surroundings of Villamanín better, we will also take a morning trip to a nearby stream to soak in its fresh water!

Now we present to you the directors that will be with your children during the Cool Off 2022 Saúl Águeda
